Service and consulting

Polishing
Contract blasting
Repair of charging materials
Glassy State
Life testing
Salt spray testing

Research and development

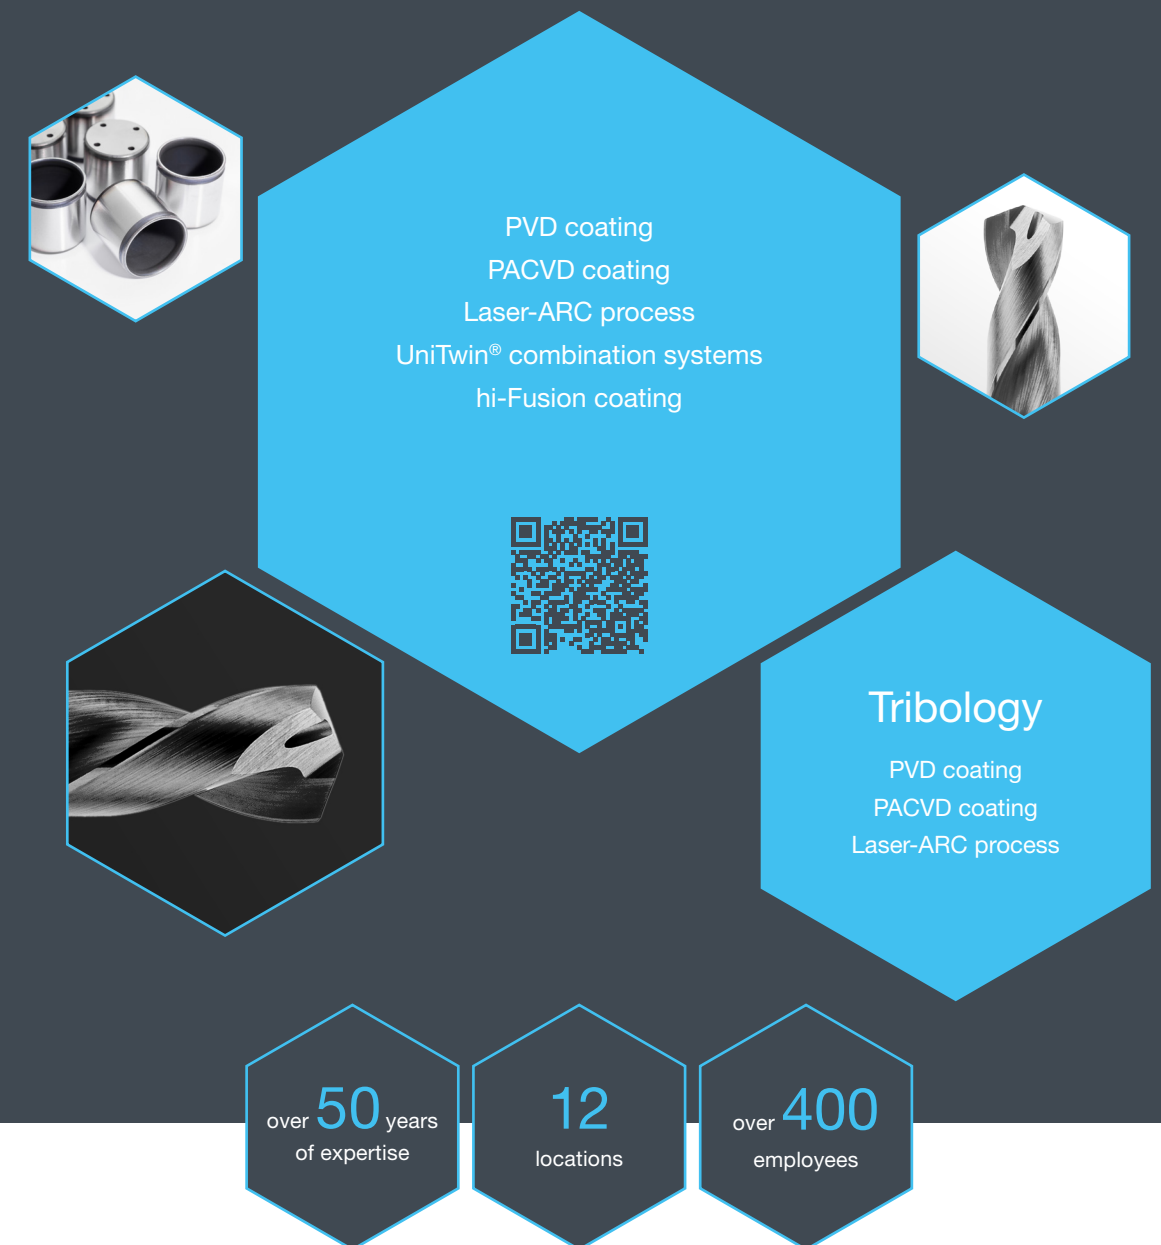

In-house laboratories
Plant engineering

Logistics

Pick-Up-Service and
Express-Service throughout
Europe

Coating Technology

When it comes to top performance, maximum service life, and uncompromising quality, we are the specialists—from custom manufacturing to mass production, for product lines with complex geometries and high precision requirements.

For us, optimization is a never-ending process. Drawing on over 50 years of practical experience, we minimize friction and wear — thereby significantly improving the performance of your parts and components.

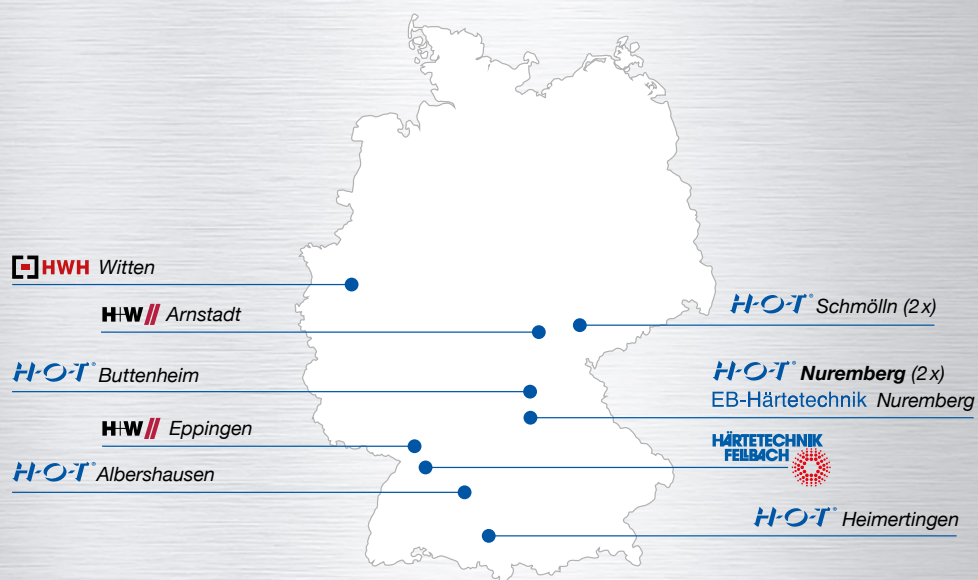

We'd be happy to provide you with a quote — please contact us.
